BioQuick® Brackets

FORESTADENT®
GERMAN PRECISION IN ORTHODONTICS

Shorter Appointments. Faster Treatment.

The aim of modern orthodontics is quicker and simpler treatment. With Forestadent's new BioQuick® self-ligating brackets, not only does the treatment move faster, but due to the extremely easy handling, your doctor's appointment will be much shorter.

Small is Beautiful!

BioQuick® Brackets are the smallest one-piece self-ligating brackets on the market. Great aesthetics are guaranteed.

BioQuick® Brackets are finished like a piece of jewelry which makes them extremely comfortable to wear.

Perfect Aesthetics.

Today's orthodontic treatment involves technology that helps to express gentle and physiologically correct forces on your teeth. Orthodontic treatment can involve a removable or a fixed phase.

During the fixed phase, the wire is placed into the bracket and will gently start to align your teeth. The new BioQuick® Brackets are extremely small and smoothly improve your appearance. This new technology helps to keep your appointments shorter and reduces the overall treatment time drastically.

BioQuick® Brackets at a Glance.

- **Great Aesthetics** – *The smallest self-ligating bracket in the market*
- **Speedy treatment** – *Extremely low friction and no binding between the wire and the bracket*
- **Shorter appointments** – *Easy bracket handling by your clinician*
- **Biological Compatibility** – *BioQuick® Brackets are Nickel Free*
- **Comfortable** – *BioQuick® Brackets have no sharp edges*
- **Reliable** – *Patented bracket base minimizes risk of bracket debonding*
- **Easy to Clean** – *No hindering elastics are used*

Treat Yourself to a Fantastic Smile. You Are Worth It!

A fantastic smile looks great. You feel confident about your teeth and it'll put a smile on your face. Only correctly positioned teeth will remain healthy in the long term.

Ideally orthodontic treatment is carried out as early as possible, but with today's high tech materials orthodontic treatment is no longer limited to children. Adults can also be treated and benefit from the same fantastic results. Talk to your clinician today about your options.
